Sara Vizcarra, DDS

General and Cosmetic Dentistry

Dr. Sara Vizcarra, a triple-board certified physician and a diplomate of the American Board of Craniofacial Pain, the American Board of Craniofacial Dental Sleep Medicine, and the American Board of Dental Sleep Medicine, is a distinguished graduate of the University of Missouri-Kansas City School of Dentistry. With over 20 years of experience, she has been providing top-notch dental care at Pinnacle Peak Family Dentistry in North Scottsdale. Her professional excellence has been acknowledged by *PHOENIX* Magazine, which has named her a Top Dentist in the Valley in 2018, 2019, 2022, 2023 and 2024.

Dr. Vizcarra's unwavering commitment to patient comfort and trust is evident in her approach to dentistry. She prioritizes understanding her patients' concerns and employs mild sedation and special isolation techniques to help reduce any anxiety. She also ensures they are fully informed about each procedure and works with them to find treatment options that best suit their needs and budget.

Dr. Vizcarra's dedication to serving others extends far beyond her professional practice. She selflessly volunteers her time and skills to perform dental work for underserved patients in the United States and Central and South America. Her involvement with nonprofits such as Arizona Dental Mission of Mercy and AzDA Cares Foundation further underscores her dedication to making a difference in the lives of those in need.

She is also personally committed to her own health and wellness. She maintains an active lifestyle, engaging in jogging, hiking, lifting weights, salsa dancing, and practicing yoga. Her dedication to her family is equally strong, as she actively participates in her son Luis' Boy Scout troop.

Dr. Vizcarra continues to build her practice's reputation by using the latest equipment and technology, including Invisalign, cosmetic procedures, extractions, and dental implants. Her patients appreciate her professionalism and compassion, as evidenced by glowing Google reviews. The patients especially value her humor and how she makes every visit pleasant and enjoyable.
